About IP 2018-2021

The Project is an opportunity for the partner universities to maintain and deepen their previous successful cooperation, unfolded within the framework of LLP Erasmus programme: study mobilities and two intensive programmes, operational during 2009 and 2014, and the Erasmus+ K2 strategic partnership «**Systèmes juridiques et droit des entreprises dans l'UE: traduire et interpréter dans la diversité**», coordinated by University of South-Bohemia in České Budějovice and taking place between 1 September 2015 and 1 September 2018.

The new Project, seen as a new stage of the cooperation between partner universities, will focus on the profession of translator/interpreter demanding cross-cutting skills such as linguistic and cross-cultural knowledge, coping in a multicultural environment, applying legislative norms, using software tools.

The Project will help promote the profession of translator/interpreter by integrating skills from different domains – linguistics, law, IT, economics, company management, and by exchanging good practices in cooperation with the companies hosting students' internships. The novelty of the Project consists of its focus on the small languages. The project of the Strategic Partnership "Legal Systems and Evolution of the Profession: translate and interpret in the diversity" (hereinafter "the Project") is aligned with the general objectives of modernizing higher education
